

At Pakachere we like to work with local people and support Malawian businesses. You do not need a guide to go up the mountain, but we highly recommend it. Not only will a guide enhance the experience through his knowledge of flora, fauna and Malawian culture, you also help a local man supporting his family.

Isaac grew up on the mountain and started guiding when he was 8 years old. He has built up a good reputation; the feedback is always positive. He organises hikes on the mountain as well as trips to Lake Chilwa, Chikala Pillars and Ntonya Mountain.

You can book him through our reception or call him direct on 0999 015560/088 277 3247 to talk about your trip. Isaac can amend the programme to your wishes and needs, and perhaps you are able to negotiate about the price

If you decide to go up on your own, please buy a map at the bar (MWK 1,000), carry a phone that works, and tell us about your plans. You can get a guide up the mountain (near Kucha We); please ask for their photo ID before setting off.
